COURSE ANNOUNCEMENT

Learning Objectives

This course is designed to provide participants with a comprehensive overview of the surgical anatomy and techniques for functional and esthetic rhinoplasty.

More experienced surgeons will have the opportunity to enhance their skills in the finesses of esthetic rhinoplasty while less experienced surgeons can learn and practice the basic principals in nasal surgery.

The course aims to teach in theory and practice (fresh frozen cadaver dissection) the modern rhinoplasty techniques to you on:

- Approaches in rhinoplasty
- Aesthetic analysis and anatomy of the nose
- aspects of rhinoplasty
- Problem solving in Rhinoplasty
- Complications and revision surgery
- Septal surgery
- Hump excision
- Osteotomies
- Tip suturing techniques
- Grafting in rhinoplasty
- Nasal base surgery
- Crooked Nose
- Saddle nose

Rhinoplasty ... Things to consider in preparation for nose surgery

Developer Message

Learn Program is developed by the "Better Hearing Society" to promote postgraduate continuous medical Education .

This is the FIRST WAVE of year 2018. The 2017 edition made a huge success and all participants gained a lot of knowledge both hands-on and hands-off groups.

This unique program is designed to give intense hands-on training on different surgeries in Otolaryngology, head and neck surgery.

Important aspect in learning the state-of-the-art approaches and techniques will be demonstrated and detailed by renowned national and international experts.

The 2018 edition of the program will have new courses introduced for the first time in Egypt and Middle East.
