## Welcome to ISIAN IRS PARS ORL 2014

The ISIAN-IRS-PARS 2014 is the biggest Rhinology Conference ever held in the Middle East. The joint meeting of the ISIAN (International Society of Infection and Allergy of the Nose) and the IRS (International Rhinology Society) is supported by the PARS (Pan Arab Rhinology Society).

Distinguished international faculty members will demonstrate advanced and extended techniques on fresh cadaver dissection on stage in a step-by-step fashion. The topics that will be covered include: endoscopy, rhinoplasty, sleep disorders, smell, basic science and more.

Join the ISIAN-IRS-PARS 2014 to network, acquire (SHARE) knowledge, and enjoy. Undoubtedly, it will be a successful scientific and social event. Dubai has it all: the modern infrastructure, dynamic business environment, a kaleidoscope of attractions; it's a tourist's paradise!
