## ABOUT THE SYMPOSIUM

The Australasian Academy of Facial Plastic Surgery (AAFPS), together with Rhinoplasty Society of Australia is conducting a three-day Masters' Symposium and Cadaver Dissection Workshop on Rhinoplasty.

Focusing on practical techniques to improve both function and form, the symposium and dissection workshop will cover all aspects of Rhinoplasty for the novice and experienced practitioners.

### ***Friday, 9 October 2015***

Masters' Symposium: **Maritime Museum**

### ***Saturday, 10 October 2015***

Masters' Symposium: **Maritime Museum**

### ***Welcome***

On behalf of the Australian Society of Plastic Surgeons (ASPS) and Australasian Academy of Facial Plastic Surgery (AAFPS), it is a great honour to warmly invite you to attend the Masters' Symposium on Functional & Aesthetic Rhinoplasty in Sydney, 8-10 October, 2015.

In this inaugural collaboration between ASPS and AAFPS, we have assembled the biggest international faculty on rhinoplasty ever seen in Australia, with some of the most sought-after speakers in the world.

The symposium commences with a half-day dissection workshop.

Our faculty will give you the opportunity to refine old skills and learn new techniques, offering a first-hand look at cutting-edge surgical practices.

The two-and-a-half-day symposium will provide a chance to learn from some of the world's best rhinoplasty surgeons including an impressive local faculty.

We have put together an informative, stimulating and creative program covering the many challenges faced in the field.

It is such a great privilege to have the masters of rhinoplasty surgery sharing their knowledge and expertise at this exciting meeting.

We look forward to seeing you there!

**Peter Callan**  
**ASPS Co-Convenor**

**George Marcells**  
**AAFPS President/Co-Convenor**
