Welcome Message

Dear friends and colleagues

On behalf of the Iranian Society of Plastic & Aesthetic Surgeons and the Organizing Committee, it is my great pleasure to welcome you to the The Global Masters Aesthetic Symposium on October 24-27, 2017 in Tehran. Every year, The Iranian Society of Plastic & Aesthetic Surgeons brings together plastic surgeons and leading scholars from around the world to address the up-to-date issues and communicate related advances and share information and lessons learned. This year, The Iranian Society of Plastic & Aesthetic Surgeons intends to hold The Global Masters Aesthetic Symposium.

It has taken great strenuous effort to design the congress to provide an innovative and comprehensive overview of the latest research developments primarily in the areas of Rhinoplasty and Face, Breast, and Body Contouring. We have a full agenda and many distinguished plastic surgeons and scientists have joined the faculty and will take part in this congress. We have received cordial help from ISAPS and we do expect a large number of plastic surgeons to attend the event.

I am looking forward to meeting you friends and colleagues in the beautiful city of Tehran in October at what promises to be a most exciting and enjoyable event. I hope that you will enjoy the congress and that your interaction with plastic surgeons from different countries will stimulate a creative exchange of ideas and will be personally rewarding. I'd like to personally welcome each of you and Thank you for joining!

Ali Bijani, M.D.
President of Ispas

Ps. The official language of the symposium is English.
